4. Federal Income Tax Withholding – Traditional IRA

If you are requesting a distribution from a Traditional IRA (i.e., non-Roth IRA), you acknowledge that your Traditional IRA (other than that portion of your distribution that consists of non-deductible contributions) will be subject to income tax and, if you are under age 59½, a 10% penalty tax for premature distribution, unless an exception applies. Your distribution will not be subject to taxes and penalties if you timely rollover your distribution to another Traditional IRA (i.e., non-Roth) or if permitted, a qualified retirement plan.

If you are requesting a distribution from a Roth IRA, you acknowledge that: (i) your Roth IRA distribution will not be includible in income only to the extent that it is a “qualified distribution” (please see the IRA Plan and Disclosure), and (ii) if your Roth IRA distribution is not a “qualified distribution,” the portion of the distribution consisting of earnings (note: non-qualified distributions are deemed to come first from contributions and then from earnings) will be subject to income tax and, if you are under age 59½, a 10% penalty tax for premature distribution, unless an exception applies. A Roth IRA distribution that is otherwise subject to tax will not be subject to taxes and penalties if you timely rollover your distribution to another Roth IRA.

The Bank of New York Mellon is required to withhold 10% of your Traditional IRA distribution for federal income tax purposes unless you select a different rate below. You can review the enclosed IRS Form W-4R, Withholding Certificate for Nonperiodic Payments and Eligible Rollover Distributions, for further instructions and a rate table that helps you choose a rate that is appropriate for your tax situation. This form can also be found at www.irs.gov/pub/irs-pdf/fw4r.pdf. YOU DO NOT HAVE TO MAKE A SEPARATE ELECTION ON THE ATTACHED FORM W-4R, AND YOUR WITHHOLDING ELECTION MAY BE MADE ON THIS FORM ONLY. If you elect not to have withholding apply to your distribution, or if you do not have enough federal income tax withheld from your distribution, you may be responsible for payment of estimated tax. You may incur penalties under the estimated tax rules if your withholding and estimated tax payments are not sufficient. If you do not elect out of withholding, **by entering 0% on the line below**, withholding will be based on the gross amount of your distribution even though a portion of your distribution may not be subject to tax (e.g., if non-deductible contributions were made to your Traditional IRA). The Bank of New York Mellon will not withhold income tax from a Roth IRA distribution.

Your withholding rate is determined by the type of payment you will receive. For nonperiodic payments, the default withholding rate is 10%. You can choose to have a different rate by entering a rate between 0% and 100% on the line below. Generally, you can't choose less than 10% for payments to be delivered outside the United States and its possessions. See page 2 of the enclosed Form W-4R for more information.

FEDERAL INCOME TAX WITHHOLDING ELECTION – TRADITIONAL IRA ONLY

Complete this line if you would like a rate of withholding that is different from the default withholding rate. See the instructions on page 2 and the Marginal Rate Tables on page 1 of the enclosed Form W-4R for additional information. Enter the rate as a whole number (no decimals).

Federal and State Income Tax Withholding Instructions

Traditional IRA, SEP, SIMPLE, And Roth IRA: In most cases, federal and state income tax law requires that we withhold tax from your distribution. You can submit your elections by completing the Withholding Tax Election Section of your IRA Distribution Request Form and following the chart below. Rates are subject to change without notice. Keep this page for your records.

If you do not make an election, we will automatically withhold as follows:

Federal: 10 percent of your gross distribution.

State: Based on your residency as outlined below.

STATE OF RESIDENCE and STATE INCOME TAX WITHHOLDING REQUIREMENTS AND ELECTIONS	
State income tax withholding is not required	
AK, FL, HI, NH, NV, SD, TN, TX, WA, WY - State income tax withholding is not required for residents of these states. We will not withhold state income tax from your distribution if you reside in these states.	
Voluntary state income tax withholding	
AL, AZ, CO, DE, GA, ID, IL, IN, KY, LA, MO, MT, ND, NJ, NM, NY, OH, PA, RI, SC, UT, VA, WI, WV - We will withhold state income tax only if you instruct us to do so. If you want state income taxes to be withheld, you must indicate the amount or percentage.	
Note: We require tax withholding amounts to be requested in whole dollars for the following states: Missouri, New Jersey .	
Mandatory state income tax withholding when federal income tax is withheld	
KS, MA, ME, NE, VT - We will withhold state income tax according to the rates below when federal income tax is withheld from your distribution.	
Kansas, Maine, Massachusetts, Nebraska	5.00% of Gross Distribution
Vermont	30.00% of Federal Income Tax Withheld
If you have elected not to withhold federal income tax, but request state income tax withholding, the following rules apply: Specify a dollar amount/percentage equal to or greater than the minimum percentages listed above (exceptions may apply).	
Note: For Massachusetts a rate of 5% is applicable if the total distribution is equal to or less than \$1,053,750. If the total distribution is greater than \$1,053,750, we will withhold at 9% of the amount which exceeds \$1,053,750, see Form M-4P at mass.gov for more information.	
Mandatory state income tax withholding when federal income tax is withheld, unless you indicate otherwise

General Instructions

Section references are to the Internal Revenue Code.

Future developments. For the latest information about any future developments related to Form W-4R, such as legislation enacted after it was published, go to www.irs.gov/FormW4R.

Caution: If you have too little tax withheld, you will generally owe tax when you file your tax return and may owe a penalty unless you make timely payments of estimated tax. If too much tax is withheld, you will generally be due a refund when you file your tax return. Your withholding choice (or an election not to have withholding on a nonperiodic payment) will generally apply to any future payment from the same plan or IRA. Submit a new Form W-4R if you want to change your election.

Nonperiodic payments—10% withholding. Your payer must withhold at a default 10% rate from the taxable amount of nonperiodic payments **unless** you enter a different rate on line 2. Distributions from an IRA that are payable on demand are treated as nonperiodic payments. Note that the default rate of withholding may not be appropriate for your tax situation. You may choose to have no federal income tax withheld by entering “-0-” on line 2. See the specific instructions below for more information. Generally, you are not permitted to elect to have federal income tax withheld at a rate of less than 10% (including “-0-”) on any payments to be delivered outside the United States and its territories.

Note: If you don’t give Form W-4R to your payer, you don’t provide an SSN, or the IRS notifies the payer that you gave an incorrect SSN, then the payer must withhold 10% of the payment for federal income tax and can’t honor requests to have a lower (or no) amount withheld. Generally, for payments that began before 2023, your current withholding election (or your default rate) remains in effect unless you submit a Form W-4R.

Eligible rollover distributions—20% withholding. Distributions you receive from qualified retirement plans (for example, 401(k)

plans and section 457(b) plans maintained by a governmental employer) or tax-sheltered annuities that are eligible to be rolled over to an IRA or qualified plan are subject to a 20% default rate of withholding on the taxable amount of the distribution. You can’t choose withholding at a rate of less than 20% (including “-0-”). Note that the default rate of withholding may be too low for your tax situation. You may choose to enter a rate higher than 20% on line 2. Don’t give Form W-4R to your payer unless you want more than 20% withheld.

Note that the following payments are **not** eligible rollover distributions for purposes of these withholding rules:

- Qualifying “hardship” distributions;
- Distributions required by federal law, such as required minimum distributions;
- Generally, distributions from a pension-linked emergency savings account;
- Eligible distributions to a domestic abuse victim;
- Qualified disaster recovery distributions;
- Qualified birth or adoption distributions; and
- Emergency personal expense distributions.

See Pub. 505 for details. See also *Nonperiodic payments—10% withholding above*.

Payments to nonresident aliens and foreign estates. Do not use Form W-4R. See Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities, and Pub. 519, U.S. Tax Guide for Aliens, for more information.

Tax relief for victims of terrorist attacks. If your disability payments for injuries incurred as a direct result of a terrorist attack are not taxable, enter “-0-” on line 2. See Pub. 3920, Tax Relief for Victims of Terrorist Attacks, for more details.

Specific Instructions

Federal and State Income Tax Withholding Instructions

Line 1b

For an estate, enter the estate's employer identification number (EIN) in the area reserved for "Social security number."

Line 2

More withholding. If you want more than the default rate withheld from your payment, you may enter a higher rate on line 2.

Less withholding (nonperiodic payments only). If permitted, you may enter a lower rate on line 2 (including "-0-") if you want less than the 10% default rate withheld from your payment. If you have already paid, or plan to pay, your tax on this payment through other withholding or estimated tax payments, you may want to enter "-0-".

Suggestion for determining withholding. Consider using the Marginal Rate Tables on page 1 to help you select the appropriate withholding rate for this payment or distribution. The tables are most accurate if the appropriate amount of tax on all other sources of income, deductions, and credits has been paid through other withholding or estimated tax payments. If the appropriate amount of tax on those sources of income has not been paid through other withholding or estimated tax payments, you can pay that tax through withholding on this payment by entering a rate that is greater than the rate in the Marginal Rate Tables.

The marginal tax rate is the rate of tax on each additional dollar of income you receive above a particular amount of income. You can use the table for your filing status as a guide to find a rate of withholding for amounts above the total income level in the table.

To determine the appropriate rate of withholding from the table, do the following. Step 1: Find the rate that corresponds with your total income not including the payment. Step 2: Add your total income and the taxable amount of the payment and find the corresponding rate.

If these two rates are the same, enter that rate on line 2. (See *Example 1* below.)

If the two rates differ, multiply (a) the amount in the lower rate bracket by the rate for that bracket, and (b) the amount in the higher rate bracket by the rate for that bracket. Add these two numbers; this is the expected tax for this payment. To get the rate to have withheld, divide this amount by the taxable amount of the payment. Round up to the next whole number and enter that rate on line 2. (See *Example 2* below.)

If you prefer a simpler approach (but one that may lead to overwithholding), find the rate that corresponds to your total income including the payment and enter that rate on line 2.

Examples. Assume the following facts for Examples 1 and 2. Your filing status is single. You expect the taxable amount of your payment to be \$20,000. Appropriate amounts have been withheld for all other sources of income and any deductions or credits.

Example 1. You expect your total income to be \$62,000 without the payment. Step 1: Because your total income without the payment, \$62,000, is greater than \$61,750 but less than \$115,125, the corresponding rate is 22%. Step 2: Because your total income with the payment, \$82,000, is greater than \$61,750 but less than \$115,125, the corresponding rate is 22%. Because these two rates are the same, enter "22" on line 2.

Example 2. You expect your total income to be \$43,700 without the payment. Step 1: Because your total income without the payment, \$43,700, is greater than \$26,200 but less than \$61,750, the corresponding rate is 12%. Step 2: Because your total income with the payment, \$63,700, is greater than \$61,750 but less than \$115,125, the corresponding rate is 22%. The two rates differ. \$18,050 of the \$20,000 payment is in the lower bracket (\$61,750 less your total income of \$43,700 without the payment), and \$1,950 is in the higher bracket (\$20,000 less the \$18,050 that is in the lower bracket). Multiply \$18,050 by 12% to get \$2,166. Multiply \$1,950 by 22% to get \$429. The sum of these two amounts is \$2,595. This is the estimated tax on your payment. This amount corresponds to 13% of the \$20,000 payment (\$2,595 divided by \$20,000). Enter "13" on line 2.

5. Delivery Instructions

Select one of the following and provide information as requested:

☐ I want my check made payable to the following Alternate Payee and/or sent to the following Alternate Address.

☐ Alternate Payee: _____

☐ Alternate Address: _____

6. Authorization

No notary is required only when adding ACH/FED Wire where both are individual accounts at BNY Brokerage Account and the banking institution. All other banking instruction additions will require a notary in Section 6.

I understand and agree that traditional IRA distributions are fully taxable to me as ordinary income in the year distributed unless I have made non-deductible contributions to my Traditional IRAs in which case the portion of the distribution representing non-deductible contributions will not be subject to tax. I also understand that Roth IRA distributions are exempt from tax if certain requirements are met. Please speak to your tax advisor concerning these requirements.

Taxpayer Identification Number Certification: Under the penalties of perjury, I (we) certify [1] that the Social Security Number(s) or Taxpayer Identification Number(s) shown in Section 1 of this form is (are) my (our) correct Taxpayer Identification Number(s), [2] that I (we) am (are) not subject to backup withholding either because I (we) have not been notified that I (we) am (are) subject to backup withholding as a result of a failure to report all dividends, or the IRS has notified me (us) that I (we) am (are) no longer subject to backup withholding, and [3] I (we) am (are) a U.S. person (including a U.S. resident alien). NOTE: Strike out item [2] if you have been notified that you are subject to backup withholding by the IRS and you have not received a notice from the IRS advising you that backup withholding has been terminated. The Foreign Account Tax Compliance Act (FATCA) code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

The IRS does not require your consent to any provision of this document other than the certifications required to avoid backup withholding.

Generally, you are not permitted to elect to have federal income tax withheld at a rate of less than 10% (including “-0-”) on any payments to be delivered outside the United States and its territories.

Note: If you don’t give Form W-4R to your payer, you don’t provide an SSN, or the IRS notifies the payer that you gave an incorrect SSN, then the payer must withhold 10% of the payment for federal income tax and can’t honor requests to have a lower (or no) amount withheld. Generally, for payments that began before 2026, your current withholding election (or your default rate) remains in effect unless you submit a Form W-4R.

Eligible rollover distributions—20% withholding. Distributions you receive from qualified retirement plans (for example, 401(k) plans and section 457(b) plans maintained by a governmental employer) or tax-sheltered annuities that are eligible to be rolled over to an IRA or qualified plan are subject to a 20% default rate of withholding on the taxable amount of the distribution. You can’t choose withholding at a rate of less than 20% (including “-0-”). Note that the default rate of withholding may be too low for your tax situation. You may choose to enter a rate higher than 20% on line 2. Don’t give Form W-4R to your payer unless you want more than 20% withheld.

Note that the following payments are **not** eligible rollover distributions for purposes of these withholding rules:

- Qualifying “hardship” distributions;
- Distributions required by federal law, such as required minimum distributions;
- Distributions from a pension-linked emergency savings account;
- Eligible distributions to a domestic abuse victim;
- Qualified disaster recovery distributions;
- Qualified birth or adoption distributions;
- Qualified long-term care distributions; and
- Emergency personal expense distributions.

See Pub. 505 for details. See also *Nonperiodic payments—10% withholding* above.

Payments to nonresident aliens and foreign estates. Do not use Form W-4R. See Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities, and Pub. 519, U.S. Tax Guide for Aliens, for more information.

Tax relief for victims of terrorist attacks. If your disability payments for injuries incurred as a direct result of a terrorist attack are not taxable, enter “-0-” on line 2. See Pub. 3920, Tax Relief for Victims of Terrorist Attacks, for more details.

Specific Instructions

Line 1b

For an estate, enter the estate’s employer identification number (EIN) in the area reserved for “Social security number.”

Line 2

More withholding. If you want more than the default rate withheld from your payment, you may enter a higher rate on line 2.

Less withholding (nonperiodic payments only). If permitted, you may enter a lower rate on line 2 (including “-0-”) if you want less than the 10% default rate withheld from your payment. If you have already paid, or plan to pay, your tax on this payment through other withholding or estimated tax payments, you may want to enter “-0-”.

Suggestion for determining withholding. Consider using the Marginal Rate Tables on page 1 to help you select the appropriate withholding rate for this payment or distribution. The tables are most accurate if the appropriate amount of tax on all other sources of income, deductions, and credits has been paid through other withholding or estimated tax payments. If the appropriate amount of tax on those sources of income has not been paid through other withholding or estimated tax payments, you can pay that tax through withholding on this payment by entering a rate that is greater than the rate in the Marginal Rate Tables.

The marginal tax rate is the rate of tax on each additional dollar of income you receive above a particular amount of income. You can use the table for your filing status as a guide to find a rate of withholding for amounts above the total income level in the table.

To determine the appropriate rate of withholding from the table, do the following. Step 1: Find the rate that corresponds with your total income not including the payment. Step 2: Add your total income and the taxable amount of the payment and find the corresponding rate.

If these two rates are the same, enter that rate on line 2. (See *Example 1* below.)

If the two rates differ, multiply (a) the amount in the lower rate bracket by the rate for that bracket, and (b) the amount in the higher rate bracket by the rate for that bracket. Add these two numbers; this is the expected tax for this payment. To get the rate to have withheld, divide this amount by the taxable amount of the payment. Round up to the next whole number and enter that rate on line 2. (See *Example 2* below.)

If you prefer a simpler approach (but one that may lead to overwithholding), find the rate that corresponds to your total income including the payment and enter that rate on line 2.

Examples. Assume the following facts for *Examples 1* and *2*. Your filing status is single. You expect the taxable amount of your payment to be \$20,000. Appropriate amounts have been withheld for all other sources of income and any deductions or credits.

Example 1. You expect your total income to be \$70,000 without the payment. Step 1: Because your total income without the payment, \$70,000, is greater than \$66,500 but less than \$121,800, the corresponding rate is 22%. Step 2: Because your total income with the payment, \$90,000, is greater than \$66,500 but less than \$121,800, the corresponding rate is 22%. Because these two rates are the same, enter “22” on line 2.

Example 2. You expect your total income to be \$60,000 without the payment. Step 1: Because your total income without the payment, \$60,000, is greater than \$28,500 but less than \$66,500, the corresponding rate is 12%. Step 2: Because your total income with the payment, \$80,000, is greater than \$66,500 but less than \$121,800, the

corresponding rate is 22%. The two rates differ. \$6,500 of the \$20,000 payment is in the lower bracket (\$66,500 less your total income of \$60,000 without the payment), and \$13,500 is in the higher bracket (\$20,000 less the \$6,500 that is in the lower bracket). Multiply \$6,500 by 12% to get \$780. Multiply \$13,500 by 22% to get \$2,970. The sum of these two amounts is \$3,750. This is the estimated tax on your payment. This amount corresponds to 19% of the \$20,000 payment (\$3,750 divided by \$20,000). Enter "19" on line 2.

Privacy Act and Paperwork Reduction Act Notice. We ask for the information on this form to carry out the Internal Revenue laws of the United States. You are required to provide this information only if you want to (a) request additional federal income tax withholding from your nonperiodic payment(s) or eligible rollover distribution(s); (b) choose not to have federal income tax withheld from your nonperiodic payment(s), when permitted; or (c) change a previous Form W-4R (or a previous Form W-4P that you completed with respect to your nonperiodic payments or eligible rollover distributions). To do any of the aforementioned, you are required by sections 3405(e) and 6109 and their regulations to provide the information requested on this form. Failure to provide this information may result in inaccurate withholding on your payment(s).

Failure to provide a properly completed form will result in your payment(s) being subject to the default rate; providing fraudulent information may subject you to penalties.

Routine uses of this information include giving it to the Department of Justice for civil and criminal litigation, and to cities, states, the District of Columbia, and U.S. commonwealths and territories for use in administering their tax laws. We may also disclose this information to other countries under a tax treaty, to federal and state agencies to enforce federal nontax criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism.

You are not required to provide the information requested on a form that is subject to the Paperwork Reduction Act unless the form displays a valid OMB control number. Books or records relating to a form or its instructions must be retained as long as their contents may become material in the administration of any Internal Revenue law. Generally, tax returns and return information are confidential, as required by section 6103.

The average time and expenses required to complete and file this form will vary depending on individual circumstances. For estimated averages, see the instructions for your income tax return.

If you have suggestions for making this form simpler, we would be happy to hear from you. See the instructions for your income tax return.
